

NOTES:

1. Smaller flange (1 1/2") is positioned upward window side.
2. Larger flange (2") is positioned downward room side.
3. Depth of sill is dependent on window frame depth (min. 2 5/8").
4. Angle brackets remain the same for all sill sizes.
5. Sills greater than 84" width will ship in two parts. Connecting bracket and hardware are provided.
6. Angle brackets are shipped attached to sill.
7. Each angle bracket flange is approximately 1/8" thick. Allow a minimum of 5/16" when mounting horizontal shades under sill.
